About Us

REDDMOON
HAIR

Founded in the heart of Qingdao, a city renowned for its legacy in premium hair craftsmanship, Qingdao Reddmoon Hair Import and Export Co., Ltd was born from a simple yet powerful vision: to create the world's finest hair products and empower businesses globally.

Our journey began over a decade ago, not just as a factory, but as a collective of artisans and industry experts passionate about the art of hair. We started with a small, dedicated team and an unwavering commitment to quality. Through years of dedication, continuous innovation, and by fostering deep relationships with our partners, we have grown into a leading international manufacturer and wholesale supplier.

Today, Reddmoon Hair is a trusted name, supplying top-tier hair systems, wigs, and extensions to wholesalers, distributors, private label brands, and salon chains across North America, Europe, and beyond. While we have expanded our scale, our founding principles remain the same: integrity, craftsmanship, and a relentless focus on our partners' success.

REDDMOON
HAIR

In Reddmoon hair, we only use the finest hair collected from our exclusive supplier in Europe, considered the top-tier human hair known for its highest quality and premium feel to produce the wigs. It's cut from young girl ponytails so all the hair strands have cuticle aligned in the same direction, with over 70% of the cuticle intact. The hair is super soft and natural, with low luster. Even after many washes, there are no dryness or tangling problems. There are no chemical processes, such as acid baths, that would compromise the hair's integrity.
